ⁱⁱ **NOTE 2:** For a **Single tumor at diagnosis-NOW** with a **Subsequent tumor(s) counted as the same primary**:

- **Increase Multiplicity Counter** [from 01 to multiple] to capture *number* subseq tumor(s) counted as same prim
- **Change Date of Multiple Tumors** to *diagnosis date* when subseq tumor(s) counted as the same primary

*Multiplicity Counter & Date of Multiple Tumors may **be updated only once** for a single tumor at dx to capture the initial occurrence of subsequent tumor(s) counted as the same primary*
